YOUNG MEN

Who may be suffering from the effects of youthful follies or indiscretion, will do well to avail themselves of this, the greatest boon ever laid at the altar of suffering humanity. **Dr. SPINNEY** will guarantee to forfeit $500 for every case of seminal weakness, or private disease of any kind or character, which he undertakes and fails to cure. He would therefore say to the unfortunate sufferer who may read this notice that you are treading upon dangerous ground when you longer delay in seeking the proper remedy for your complaint. You may be in the first stage; remember you are approaching the last. If you are bordering upon the last, and are suffering some or all of its ill effects, remember that if you persist in procrastination the time must come when the most skillful physician can render you no assistance; when the door of hope will be closed against you; when no angel of mercy can bring you relief. In no case has the Doctor failed of success. Then let not despair work upon your imagination, but avail yourself of the beneficial results of his treatment before your case is beyond the reach of medical skill, or before grim death hurries you to a premature grave. Full coarse of treatment $25. Send money by Post Office Order or Express, with full description of case. Call, or address,

THE DAILY and WEEKLY HERALD has more than double the circulation of any other paper published in Southern California. Business men recognize it accordingly as the best advertising medium South of San Francisco.

WEDNESDAY,.....OCT. 20, 1875.

NEWS OF THE MORNING.

Ex Senator Chandler, of Michigan, has accepted the appointment of Secretary of the Interior.

The draft of cavalry horses for the use of the army in Havana has been abolished, and a tax of ten dollars for every horse that would have been drafted has been instituted instead.

The iron works mills at Pottsville, Pa., have resumed work, employing some 300 men at a reduction of 25 per cent. from former wages.

Trouble about a copyright closed the St. Charles theater, at New Orleans, night before last.

George Sankey, a boy of 17, was drowned off Long bridge, San Francisco, yesterday.

The New York *Herald* says there is a gloomy prospect for the miners in a number of localities in Pennsylvania this Winter. Some 20,000 people have been out of employment for some time.

The official returns of Hamilton county, Ohio, give the Republicans all the State Senators and all of the ten Representatives.

A negro named Edmondson, who had committed an outrage on a white woman, was taken from the jail by a mob at Atlanta, Ga., yesterday and hanged.

In Rio Janeiro a serious collision has occurred between the police and populace. A number of persons were seriously injured and many arrests made.

The New York custom house officials have seized a large amount of goods shipped under a false invoice.

A railroad war is expected soon to be inaugurated by the Western railroads. Low freights and fares may be anticipated.

The first appearance in Boston of Dr. Hans Von Bulon, the great musician, was a signal success.

The defeat of 600 Dalmatians who attacked a Turkish force is reported.

J. and W. Dudgeon, engineeers, of London, have failed for half a million dollars.

The Emperor William has reached Milan, where he is expected to remain for several days.

At Salinas yesterday Matthew Williams was shot and killed by Wm Johnson. Cause—a dance-house row. Johnson was justifiable.

The P. M. S. S. Co.'s new steamer City of New York is completed and goes at once into the service of the company.

On Sunday, near Sacramento, Stewart McMillen drove into the river and both himself and horse were drowned.

THE Pall Mall *Gazette* states that several cases of poisoning of the skin, have resulted from wearing colored stockings. It seems that arsenic and other poisonous compounds are used in dying the Balbreggan hose.

ARTICLE 4,080 of the Political Code of California provides that the Board of Supervisors of each county shall encourage the planting and cultivation of trees along the public highways and on public grounds. Persons planting and cultivating the same are allowed for each tree, four years of age, the sum of one dollar.

IT seems to be generally conceded that the contest to-day will be almost no contest at all—that Mr. FITZGERALD will be elected by a large majority—yet there is too much at stake for the people to look on with indifference. The real struggle is whether or not the people shall become the victims of the school book rings. If through the apathy and indifference of the voters the book rings should chance to secure the election of Mr. CARR, changes in the school text books will follow, and the parents of the State will be made to purchase school books to the amount of two hundred and fifty thousand dollars.

Sued for Libel.

The San Francisco *Chronicle* has been most unscrupulous in the business of maligning and traducing Dr. FITZGERALD. It has hesitated at nothing that it thought would assist in the task of blackening the character of one of the purest and best men in the State. Its slanders have reached a culminating point as will be seen by the following dispatch received at the HERALD office late last evening:

SAN FRANCISCO Oct. 19th, 1875.

EDITOR HERALD:—Dr. Fitzgerald has prosecuted the *Chronicle* criminally for libel to-day.

J. C. MAYNARD.

Very American.

Some of our cotemporaries evince a disposition to ridicule the SHERIDAN banquet which took place in San Francisco a few evenings since. We do not concur. There was nothing un-American in the assemblage, its speeches, toasts or songs. Indeed as we read the speeches and sentiments uttered on that occasion we are impressed with the idea that the whole affair from inception to farewell was very American like. No people in the world bow lower or reverence more reverentially titled greatness than we Republican Americans. We venerate title, civil or military, native or foreign. All we want is to see the man on whom fortune has showered her favors and our hats are off and there is dust on the knees of our pants SHERIDAN is somebody; he wore epulets; he is one of the gods we worship. We are prone to this sort of adoration. We go into it with a zeal and zest only equalled by our admiration of the man who possesses millions of dollars. Title and wealth are two things which the average American will allow no one to bow more obseqiously before than himself. We have no fault to find with the TOM FITCHES and the URIAH HEAPS who attended the SHERIDAN banquet. They were following out the American instinct, glorifying themselves and doing honor to a distinguished General—a Lieutenant General of the United States army. Let us have no more hypercritical carping and harping. SHERIDAN likes fawning and he lives in a country whose people like to fawn on him or any one who wears a title. The SHERIDAN banquet was all right—just the thing to those who had the honor of being present and those who were not need not flatter themselves that they can ridicule or sneer this sort of thing out of fashion.

The Modern Turf.

We are pleased to witness the disposition on the part of the millionaires of California to invest in fine horses. We say this because progress of modern civilization has been measured by the speed of the horse; and the number of fine studs in a country is in proportion to its enlightenment and refinement. The growth of the modern turf system, however, is so suggestive of the prominent evils of our civilization that we connot avoid contrasting the race course of the Greek with that of the Anglo Saxon. The sports of the ancients had an ulterior object, and were designed to improve the man rather than the beast. The proudest men of Athens won their choicest laurels at the Olympic games, won them by skill and endurance. Soldiers that had led vast armies to victory, and statesmen that hold in their grasp the destinies of Emporer handled the rains, as their swift coursers plunged past the goal. The poet and the historian read their works to the multitude while the heroes were resting from their toils. The chief glory of the modern sport is the shallow honor of owning a swift footed nag, or the artful trickery of the jockey who directs the animal. The multitude assemble on the course, and the preponderating element which gives tone and feeling to the whole is one which society regards with indifference. The gambler, the trickster, and shyster come forward with their pools, their race track jargon, and their jockey tricks. The owner of the fine animal that comes forth bestrode by a trainer or jockey belonging to the lower classes of society, views the contest with indifference or as decisive of several bets. The jingle of coin drowns every other sound. Nothing shows on the present race track but the power of money. The only exhibition of skill or endurance is on the part of the hireling whom the intelligent observers look upon with doubt. The jockey honors are worn in the barn yard, the master's ownership of the winning horse is regarded only from a pecuniary standpoint, and about the only genuine enthusiasm evoked from the educated people who attend, is a fleeting admiration for the noble animal that bore away the purse. Of course it may be a source of pride to the modern CRESUS to possess a fine animal, and he may be ranked above the savage Arabian as he walks out occasionally to view his stables; but as an element of progress or a means of improving either the morals, the taste, or the manhood of the people, he cannot claim pre-eminence. Still we do not hope for California to reform the human race on this point and will content ourselves with the introduction of famous horses and the maintanance of the race course as it exists in richer and old countries.

Cotton Culture.

While it is not our desire to underestimate the advantages of the soil and climate of California, it is manifest that there is too much experimenting in agriculture, and that fruitless efforts are being made to introduce almost every product grown in the civilized world. Many of the industries now receiving attention will have ultimately to be abandoned as either unprofitable or less remunerative than other staples. Many of our farmers will be deceived by temporary high prices of certain articles, consequent upon scarcity, and forget the rate that must ultimately be met when production equals the demand, or accessible surplus from other countries is brought in. The idea that everything will pay enormously, and that abnormal profits from simple farm labor will be permanent, should not be fostered. It is both impolitic and unjust to raise the hopes of the new settlers to the realms of romance. There are two articles which we have particularly in our mind at the present time, and to which the foregoing remarks apply. These are cotton and tobacco. The latter has been grown in California to some extent, but the industry is yet in only an experimental state, and certainly cannot be classed among the profitable branches of farming in California. The weed flourishes, but is of a very inferior quality; so inferior, in fact, that it would not class anything but "rejected" in any tobacco market in the United States. No perfect process for curing has yet been discovered, and until this point is settled our people should avoid tobacco planting except on an experimental scale, and should first test the adaptation of their particular locality to this plant. As regards cotton we also notice a vast deal of nonsense floating around through the press. Editors and lecturers get tangled in huge bunches of statistics which they have not the strength to handle. Mr. J. W. A. WRIGHT lectured at the State University at Oakland a few days since on "Cotton Culture," and succeeded in collecting together a mass of dazzling generalities that are calculated to mislead the youths who listened to his harangue. In the first place he put the yield at an average of two bales per acre in this State ("one to four bales") but a little further on we discover this to be seed cotton, which reduces the actual figures to about 400 to 500 pounds of fibre, or the same as all the bottom lands of the Mississippi Valley produce. Irrigation is pronounced absolutely necessary. The costs of picking are stated by Mr. WRIGHT to be one and one-half cents per pound, and freight to San Francisco eight to ten cents, the cost of cultivation being estimated at five to seven cents. The product of 1875 cost the farmer fifteen to seventeen cents per pound laid down near the Golden Gate. On this Mr. WRIGHT figured out a good profit, by assuming a price of thirty cents per pound. By reference to the San Francisco papers Mr. WRIGHT would have found that on the day his address was delivered middling New Orleans cotton was worth in Liverpool only seven and a half pence, or about fifteen cents per pound. As the cost of transportation to Liverpool, with insurance and commissions added, would certainly be two cents per pound, the California grower could only sell his cotton on the day of this address at a price two to five cents per pound below the actual cost of production. This is fact opposed to theory. It may be that California will be able to occasionally profit by cotton culture when abnormally high prices rule, but there is certainly no money in it at anything like the present value of the staple, and it is not probable that there will be a return to the standard of prices which ruled just after the war. The South now produces as much as before the rebellion, and with her cheap labor is likely to retain a monopoly of cotton culture.

INDUSTRIAL EDUCATION.

More Suggestions from Judge Lindley—Samples of Advertising—A Subject for general Consideration.

EDITOR HERALD:—You were kind enough to print an article from the *Industrialist*—the paper of the Kansas Agricultural College—and you having thus favored the industrial side of the question, I propose to tax you a little further in the same direction, by printing in the body of this communication, some advertisements, taken from the same paper. They are more emphatic, direct and practical than any thing I could write. These advertisements speak, trumpet-tongued, to the farmers and mechanics—to all classes who have sons and daughters growing up in idleness, or who have graduated with a genteel education, but without practical capacity to earn a living. If we cannot find Professors capable of carrying their theories to the field and shop and teaching their application, then do as Americans always do in an emergency—grow them—train them—make them—improve them.

Kansas State Agricultural College. A Thorough and Direct Education for the farm Orchard, Shop and store. Tuition Absolutely Free!

English Language. The direct aim of the course is to make the student skillful in handling the machinery called language, just as an engineer handles his locomotive. Drill in English, History Of English, Structure Of English, Study Of Words and Rhetoric. Constant practice in the class room, and, if desired, at the printer's cases.

Mathematics. Practical, direct and thorough drill in Arithmetic, Book-Keeping, Industrial Drawing, Algebra, Geometry, Trigonometry, Surveying, Mechanics, Engineering. Work in Field, with Tape Line, Chain, Compasses, Transit and Level.

Gardening for Profit! Instructions and drill in Kansas Horticulture. The Nursery, Orchard, Vineyard, Vegetable Gardening, Flower and Landscape Gardening. Kansas Forest culture a specialty. Seventy acres devoted to experimental apple, pear and peach orchards, Vineyards, Nursery and Gardens.

Farming for profit! Special courses in Kansas Practical Agriculture. Simple Tillage, Farm Implements, Comparative Physiology, Stock Breeding, Mixed Husbandry, Rotation of Crops, Manures, Feeding and Buildings. 185 Acres used by this Department. Constant Drill in Farm Work and in the care of Devon Shorthorn, Jersey and Galloway Cattle; Essex Berkshire, Lancashire and Poland China Swine.

Special for Woman. Physiology and Special Hygiene. Special Lectures on Farm Economy, By Prof. Shelton—the Dairy, Poultry, etc. Gardening, By Prof. Gale—vegetable, flower, commercial and ornamental. House-hold Chemistry, By Prof. Kedzie—the chemistry of cooking, bread, tea and coffee, butter, cheese, dying and coloring, bleaching, disinfectants, ventilation etc.

The College Farm Keeps constantly on hand and for sale, specimens of Shorthorn, Jersey, Lancashire, Berkshire, Essex Swine and Devon Cattle. Address, E. M. Shelton, Sup't Farm.

Mechanical Department. Regular Instruction and Practice in Carpentry, Cabinet Making, Turning, Scroll Sawing, Wagon Making, Blacksmithing and Painting. The Department is well equipped with tools and machines for the student's use.

Printing! Printing! Printing! Daily Instruction and Drill in the work of a First-class Printer. The Literary Department offer a thorough education in the construction and use of the English Language, as employed by the Proof-Reader; in Book-Keeping; and in Industrial Drawing, as the best developer of that Taste necessarily exercised by every good Job Printer. The Printing Department is well furnished with all the facilities for a speedy mastery of the art of Printing, and is in charge of a practical printer. Besides regular class instruction in printing, the weekly publication of the Industrialist by the Department furnishes advanced students the requisite drill in newspaper work.

Telegraphy Four miles of line, twenty instruments, and daily instruction and drill, by an experienced operator, in sending, receiving and office accounts, reports and book keeping. No charge, except for blanks, say $3. Special course of lectures, by Prof. Kedzie, on electricity, battery, etc.

What farmer in Los Angeles county would not rejoice, if he could order from the Prof. of Agriculture in the State University a Shorthorn, Lancashire or Jersey; a Marino, Southdown or Cotswold and know that the blood was pure and price reasonable—both guaranteed by the high character of the Professors and of the University.

Perhaps our influential Board of Regents who are mostly on the theoretical side of this question and the local-high-toned interests about Oakland may successfully resist the incorporation of these industrial heresies into the University of the State of California. If so let us have the Kansas plan in the Southern part of the State.

There is no Solution of the problem of, "What shall we do with our boys"—and girls except by industrial education. The sooner the people and the Regents recognize this fact and grapple with it, the sooner the boys will cease growing to be hoodlums.

In my next I will endeavor to give more of an original article in the way of a review of the plan of the Grangers College as presented in their published work.

San Francisco News.

SAN FRANCISCO, October 19th.—Among those best informed regarding Pinney's whereabouts the impression prevails that he is in South America. When he left here his baggage consisted of four trunks, each one so heavy that it required two men to handle it. It is whispered about that a Government vessel had been sent on an important mission to South America; hence the belief that the authorities are taking steps to capture Pinney. No confirmation of this report, however, is received from the naval officers. The detective duty of working up the Pinney case was originally entrusted to Capt. Lees, who is favorably co-operating with Government detectives in Washington.

The Eastern Star.

VALLEJO, Oct., 19th.—The Grand Chapter of the Eastern Star met yesterday with ten Chapters represented and about forty Delegates. Reports of officers were read, referred and considered. Charters were granted to six Chapters. At the session this morning several amendments to the Constitution were adopted, one changing of representation and another reducing minimum initiation fee to $3. The election of Grand officers was made a special order for this afternoon at 2 o'clock.

The Chapter will finish its business and adjourn sine die this afternoon.

A Grand reunion under the auspices of the Vallejo Chapter will be held this evening.

Bay District Races.

SAN FRANCISCO, October 19th.—At the track at the hour set for the opening of the races—2:30 P. M.—appearances indicated a spare attendance for the first day. Less than three hundred were collected in front of the pool seller's, and these were chiefly persons peculiarly interested in the races. Two hacks were noticed in the park, and less than a score of ladies were on the balcony of the club house, the grand stand being almost entirely deserted. Pool selling commenced about an hour before the calling of the horses, and the chances were taken moderately brisk, but at comparatively low figures, the choice of favorite vacillating between Chance and Bradley. In the aggregate of the pools sold the investments were even on each. The average range was Chance $50, Bradley $50, to the field $10. An occasional double pool went off at $220, but most of the pools were on the basis first noted. The field, as will be seen by the entries given, numbered eight horses. In seme of the pools sold the chances of one of these eight winning the race was taken as low as $5 to $50 each on Chance and Bradley. These two three-year-olds have already established a crack record, Bradley having won the race at the State fair at Sacramento, and Chance took the three-year-old race on this track last Spring and again at Sacramento.

When called to the track, buvers of the field were slightly appalled by the absence of less than six of the horses which the racing cards called for in the race for the Stanford plate, the raft comprising only Chance, Bradley, Newhall and Sherman. This state of affairs indicated an indifference of the knowing ones as to the chances of the field in the pools. In the draw for positions Sherman took the first place, Chance the second, Newhall third, and Bradley outside. It was ten minutes past three before the quartette were off on the two-mile dash. Bradley took a fine lead at the start, Chance second and Sherman third, all four running about a length apart. At the first mile on passing the score Bradley led by half a length, Chance second, the other two a length behind, neck and neck. In the second round Bradley held his advantage and came in ahead by five lengths, Chance second and Sherman third.

Later—The Stanford plate was won by Bradley, five lengths ahead of Chance. Time, 3:40½.

Crimination and Recrimination.

ST. PAUL, Oct. 9th,—Developments, sustaining Hunter's charges against Col. Penoender, the Republican candidate for State Treasurer, are creating great excitement all over the State, and his defeat is considered a foregone conclusion, as there is additional proof that Munch did advance State funds, for the purpose charged in 1870. The fact has leaked ont that Munch's bondsmen, who made good the amount of the defalcation, secured from Penoender his note for money so recived, which note is now held by the Merchants' National Bank for payment.

Virginia City Items.

VIRGINIA CITY, Nev., October 19th.—As Wm. Dunston, of the firm of Sullivan & Dunston, was returning home after the reception of General Sheridan last evening, he accidentally ran against a woman, to whom he was about to apologize, when her escort drew a knife and stabbed him in the abdomen. The wound is considered fatal, although he is easier to-night. The man who did the cutting ran down the street, and as it was dark he could not be recognized. Two arrests were made to-day, and it is thought the examination to-morrow will throw more light on the matter. Dunston is well known in San Francisco.

A miner named Fred. Balotte was run over by a locomotive yesterday evening, and died of his injuries this morning.

NEW YORK, October 19th.—A special from Washington says that Wm. King, ex-Postmaster of the House of Representatives, has been here for several days for the purpose of pressing an early trial of the indictment against him for perjury in connection with his testimony before the Ways and Means committee regarding the Pacific Mail subsidy. King's counsel, Gen. Butler, will ask the Criminal Court when it meets next month to have an early day fixed for the case. King says he does not intend to present his credentials as a member of Congress to the next House of Representatives with this indictment hanging over him. The District Attorney will probably try to have the case postponed until the attendance of Richard Irwin, a very important witness, can be procured.

ANN ARBOR, Mich., October 19th.—Prof. James C. Watson, of the Michigan University, discovered a new planet last night. Its right ascension is 15 degrees, 16 minutes, its declination 7 degrees, 3 minutes North. It shines like a star of the tenth magnitude and is moving West and South.

Gen. Meredith Dying.

INDIANAPOLIS, Ind., October 18th.—General Sol. Meredith is dying at his home in Cambridge City.

Fire at Oil City.

OIL CITY, Pa., October 19th.—A fire occurred at half past 2 o'clock this afternoon in a small tenement house in the North suburbs of the city, occupied by a family named Ginty. The mother of the unfortunate family had left her three children alone while visiting, who during her absence thought to kindle the fire by using kerosene. The oldest child, a boy, applied the fiendish fluid, which spontaneously ignited, setting fire to his garments. He at once ran from home, but before the flames could be quenched he was so badly burned that death will be the probable result. The elder sister, seven years old, luckily escaped from the house uninjured, but the youngest child, a girl between three and four years of age, was not so fortunate. Unconscious of her agonizing position, she fled to the closed door. The flames immediately enveloped the entire structure, leaving the frightened children to the mercy of the flames, when the entire building was consumed. The body of the cremated child was removed, a shapeless mass. The family are now without a home and in a destitute condition. The loss on the property is small.

Students Assail the Odd Fellows.

NEW YORK, October 18th.—A New Haven special says that during the Odd Fellows' parade to-day several Yale College students assaulted a man who was following the procession and dragged him from his car. The Odd Fellows drew swords and came to his rescue. Several students were injured by swords and one or two Odd Fellows were hurt by stones thrown by the students.

The other Republican nominees are very strong and unobjectionable men.

GOLD REPORT.

SAN FRANCISCO Oct. 19.

Gold, 116⅝.
Greenbacks—Buying, 85; selling, 86½.

LOCAL BREVITIES.

The Judicial Election takes place today.

The steamer Orizaba left yesterday at 10:15 A. M. for San Diego.

Mr. Begole, of San Diego, was in the city yesterday.

Hon. J. G. Eastman returned from San Francisco by the Orizaba.

Messrs. Dotter & Bradley were putting down the oil cloth yesterday in the halls of the Pico House.

The Arab troupe is advertised for an exhibition at Turn-Verein Hall on Saturday night.

The steamer Orizaba arrived yesterday morning from San Francisco with 100 passengers.

The depot of the Los Angeles and Independence Railroad on San Pedro street is progressing rapidly.

Mr. Alexander Torges, Jr., the proprietor of the Cincinnati *Freie Presse*, is in the city.

The colony for Arizona from Junction City, Kansas, was heard from at Fort Wingate on the 29th ult.

Gold closed yesterday afternoon at 116⅝ per cent. premium. Currency sold here at 85 @ 86½.

Officer Twomey gave the alarm of fire at the engine house yesterday morning.

We are sorry to learn that our friend George Furman, is sick with typhoid fever.

The anniversary ball of Shominac Tribe, I. O. R. M. on the 27th inst., promises to be largely attended.

The Ladies of the M. E. Church, South, propose holding a supper, during the week of the Fair.

Mr. S. W. Craigue, of the well known liquor house of Lips, Craigue & Co., arrived yesterday by the Orizaba, from San Francisco.

The steamer Senator sailed from San Pedro for San Francisco yesterday at 10:15 A. M., and from Santa Monica at 5 P. M.

Mr. David Silverman left this morning for San Francisco. During his stay here he has made a host of friends, who regret his departure.

Mr. I. Goldsmith, having sold out the Identical, now occupies the Orient. Mr. Goldsmith is an enterprising man and will no doubt have a superior stock of cigars and tobocco for sale,

Capt. George B. Walker has rented Gov. Downey's mansion on Figueroa street, which he will occupy on the arrival of his family from Europe. They left Liverpool on the 18th inst.

Two schooners are on the way to Santa Monica with ties for the Los Angeles and Independence Railroad. As soon as they arrive the balance of the road to the city will be finished.

Mr. Yates, general agent of the Singer Sewing Machine, is in the city seeing the sights under the charge of Mr. Doak, the gentlemanly agent here.

In the case of officer Twomey yesterday before Judge Gray the jury brought in a verdict of not guilty. Officer Twomey received the hearty congratulations of his friends.

Hon. David Barclay, formerly member of Congress from the Twenty-fourth District of Pennsylvania, will shortly settle in Los Angeles. Three of his sons are already settled in this county.

In the interest of the six Chinamen arrested by officer Twomey on suspicion of mudering the Chinese gambler "Jack," a writ of habeas corpus was taken out yesterday afternoon, but Judge O'Melveny remanded five of them to jail and released the sixth, he appearing to be guiltless.

A fire occurred yesterday morning at half-past three o'clock. The residence of Dr. Dunn, at the corner of Pearl and Adams streets, was burned to the ground, through accident. The loss is $2,000 and no insurance. Officer Funk gave the alarm, but before the engine could reach the scene the house was in ruins.

On Monday night Officer Funk picked up a man at the corner of First and Los Angeles streets who had $400 on his person. He was taken to jail for safe-keeping, and yesterday morning his money was returned to him. We delight to publish such an item of a police officer, for it shows them to be above suspicion.

Rev. T.W. Greene, an eminent Baptist clergyman of Denver, Col., is about coming to California, and, we trust, may be induced to give Los Angeles a call. We heard him at a meeting of the Evangelical Alliance at Leavenworth, Kansas, last fall, and he made the dry bones of religious bigotry rattle with his eloquence. He is a superior pulpit orator.

The following were the principal shipments from the Southern Pacific depot yesterday; 72 sacks of meal, from Aliso mills; 122 dry hides, from Gassen & Pico; 214 sacks of corn, from H. Newmark & Co.; 10 barrels of brandy, from L. J. Rose; 14 cases of honey, from Thomas McLain; 70 sacks of feed, from Hellman, Haas & Co.

Major McCrea goes out to day with the pay car. He will disburse about sixty-five thousand dollars this trip in this and San Bernardino counties. The disbursement of the Southern Pacific railroad each month in this valley averages sixty thousand to seventy-five thousand dollars per month. This is so much gold placed in the hands of the people.

We have received statements concerning the punishment of a child in one of our city public schools which are so conflicting that we feel hardly justified in saying where the blame, if any lies. The matter is one belonging rather to the Board of Education than to the journalist. To avoid the possibility of doing an injustice to any-one weforbear details and comment until weare in possesson of all the facts.

The Temecula Indians.

The California Indians deserve well of the Government of the United States, for, in the early day, they rendered valuable assistance to Fremont and other explorers. At the battle of Salinas Plains a company of Walla Walla Indians fought bravely, being in the front of the fight during that engagement. During Fremont's campaign in this vicinity the immense herds of stock were driven off and the army of occupation was in imminent danger of starvation, but for the information and aid given by the Indians. Yet, notwithstanding this service, the Government gives them no land, no blankets, no annuities. The Temecula Indians claim that they received from Indian Agent Lovett a long time ago a paper giving them a title to Temecula, but that Mr. Stanley took the paper away from their Alcalde by force. Whether this be true, they have been ejected from their homes, and their only chance now is to occupy some of the small reserves that are about being laid off, and then demand through our Senators and Representatives that the Government assign it to them. One thing is probably certain: that Temecula is lost to them and they must try to get a title to some other government land as soon as possible. If these were the scalping Indians and would turn out and kill surveyors, outrage women and brain children, the peace policy would send out a few Quakers with car-loads of provisions, blankets and scalping-knives, but, being industrious tillers of the soil, the great Quaker heart is unmoved.

The Orphans' Fair.

Turn-Verein Hall was crowded last night on the occasion of the Orphans' Fair. The ladies in charge had beautified and ornamented the Hall until it was hardly recognizable. A bouquet stand occupied the centre of the floor and was presided over by beautiful young ladies, who dispensed flowers to the lovers of nature. Around the hall were stands for fancy articles—a postoffice from which the festive youths received loving epistles from unknown inamoratas; a grab-bag, from which was drawn dolls, dressed and undressed, and all sorts of oddities; a wheel of fortune, where the future was shown; a Fairbanks' scale, for weighing the adipose and exposing the feather weights; an ice cream stand, which cooled off the apoplectic and the feverish. These were only a few of the attractions, The musical entertainment—extracts from Martha, with Mad. Franzini, Miss Seaman, Prof. Arevalo, Dr. Fernandez and Mr. Guenette in the cast, and Prof. Knell at the piano, was unusually attractive. To-night the Fair will be better arranged and better attended, and we urge all the friends of the orphans to be present.

The Indian Inspector.

Mr. Edward C. Kemble, the Indian Inspector, leaves to-day for Arizona; Mr. Kemble first landed in San Francisco in 1846, when there were only twenty-five houses on the site of the future great city. He started the first newspaper on the coast the *California Star*, and afterwards founded the *Alta*. He was with Fremont when the sailors under Commodore Stockton occupied Fort Hill, in this city, and was present when the treaty between Fremont and the Californians was made, Don Pedro C. Carillo acting as envoy extraordinary for the natives on that occasion. So far as Indian affairs on this coast are concerned he knows the defects of Indian character, as well as their wants, and will make a correct report to the Interior Department. He has been warmly welcomed to Los Angeles by our citizens.

Bound for California.

We find the following notice of a leading Baptist preacher in the Denver *News*: "A party of excursionists, or emigrants, limited to twenty-five, under the leadership of Rev. Winfield Scott, leave this morning for California. They go over the mountains in a chartered passenger coach, for which the railroad company receives $1,000, or at the rate of $40 for each passenger. They will eat and sleep in the passenger car, each one taking a lunch, a pillow and a blanket, and it is an express condition of the charter that the car shall go through with the regular mail trains and not be side-tracked or attached to emigrant trains, Most of the party go with a view to permanent settlement on the Pacific coast.

Passengers for San Francisco.

The steamer Senator sailed yesterday from San Pedro and Santa Monica with the following named passengers for San Francisco and way ports: For San Francisco—W J Buchanan, D H Allen, A Fetterly, J Elcrist, T Lynill, A Roberts, J C D Hoyt, M Tuckerman, J W Elliott, J H McLean, J McCormick, E Muzzy, D F Peck, Mrs C V Clayton, Mrs Evans, W S Swan and family, Rev E Birdsill and son, Miss R S Harlan, F M Locket, R H Yates, H F Lites, J B Lesey and family, M Falkner, H M Judge, O G Moore, Mrs Glassell, G H Gogherty, T H Jones, J Dubois, S Sampson, W Matheson.

For San Luis Obispo—J Albright, J H Brown, Mrs M J Stewart, Mrs A Rosenbaum.

For Santa Barbara—J Basques, G Grant, Fr. J Pujol, A S Bauchay, J M Garrison, A J Bryant, J A M Soto, M Loura.

Passengers Coming.

The steamer Mohongo, which left San Francisco at 9 o'clock yesterday morning, carries the following list of passengers for Santa Monica and San Pedro: M Victor, Mrs H Hobart, E Eddy, E Harvey, J Dougherty, W J Baldwin, Mrs E Charon, Mrs R Latimer, L G Gerough, W Harnford and wife, G Bailey, L Gunther, Mrs Peoples, Mr Longstreet, O Cummings, H Ebert, Mrs Johnson, A Faber, Mr Reos, Mr Brine and family, E Smith, M Houghton, S Cole, J Crooks, Mrs Cox, Mrs Castello and child, Mr Clum, J McLeon, J Cornell, H Barrows and family, P Penfold, Geo Hinds, Mrs Hinds, S Washburn, R Goldman, Mrs Ames, H Cavanaugh.

Mrs. Ponet, No. 9 Commercial street, has received from the Eastern emporiums of fashion an extensive assortment of new styles of bonnets, ribbons, feathers, laces and flowers. All styles of hats from the imported Paris pattern hat worth $50 down to the plain straw. Real ostrich tips, staple and fancy ribbons, silk velvets, thread laces, and all other fashionable millinery can be obtained at the lowest figures. Mrs. Ponet employs only first class trimmers and all in want of fashionable Fall and Winter hats should give her a call. She is daily opening fashionable styles, which arrive by every steamer. oct20tf

OH, BE NOT THE FIRST.

Oh, be not the first to discover
A blot on the fame of a friend,
A flaw in the faith of a lover,
Whose heart may prove true to the end.

We none of us know one another,
And oft into error we fall;
Then let us speak well of our brother,
Or speak not about him at all.

A smile or a sigh may awaken
Su pi ion mos false and untrue;
And thus our belief may be shaken,
In hearts that are honest and true,

How often the light smile of gladness
Is worn by the friend that we meet,
To cover a soul full of sadness,
Too proud to acknowledge defeat.

How often the sigh of dejection
Is heaved from the hypocrite's breast,
To parody, truth and affection,
Or lull a suspicion to rest.

How often the friends we hold dearest.
Their noblest emotions conceal,
And bosoms, the purest, sincerest,
Have secrets they cannot reveal,

Leave base minds to harbor suspicion,
And small ones to trace out defense—
Let ours be a noble ambition.
For base is the mind that suspects.

We none of us know one another,
And oft into error we fail;
Then let us speak well of our brother,
Or speak not of him at all.

Mosquitos and Fleas.

As first-class nuisances mosquitos and fleas are twin brothers. Their points of difference, however, are numerous, and commence with their existence. The former are best born in swamps, and the latter hatch well in dry sand-piles. Both are blood-thirsty and immodest. Neither hesitates to invade the abode of innocence and virtue. Blood to them is just as good, whether drawn from the cheek or the calf of the leg. The one wages war only by night, the other at all times and at all places. When the mosquito is satiated he quits—not so with the flea. That animal, when full to repletion, converts your body into a circus ring or a race track, and seeks to benefit his digestion by violent exercise. Leap-frog and hurdle-racing are his favorite amusements. The mosquito disturbs your rest and makes you ill-tempered. The flea is your traveling companion. He accompanies you to church and causes you infinite torture during a long and tedious sermon. You watch the hands of the clock in despair. You try to sit on him; then endeavor to crush him by leaning back and fairly grinding the pew. Everybody wonders at your uneasiness. The minister tells you that God made all things, and exhorts you to be grateful for the manifold blessings heaped upon you. You try to look religious, but all in vain. Your heart rebels against God for making that flea. At last the benediction is pronounced and you hurry forth as if from a funeral. Mingled rage and discomfort are clearly evidenced in your features. You go home and——do you reflect on the sermon? No. You go for that flea, with murder in your heart, and never rest until you have fairly captured him and heard his bones crack between your thumb nails.

DEAFNESS

Permanently Cured.

On the 1st day of October I made oath before A. W. Potts, County Clerk, that I had been cured of deafness in a short time by Dr. Aborn, at the Backman House. As so many said my hearing was only temporarily restored, I publish this card for the purpose of informing all who are so skeptical that the cure is permanent. Under Dr. Aborn's treatment my hearing has been entirely restored. My sore eyes and granulated lids, with which I was greatly troubled, have also been cured by Dr. Aborn; and my general health, which was very much broken down, has been restored, so that I now feel better in every respect than I have for the past eight or ten years. I have gained several pounds in weight, and would cheerfully advise my friends, if in need of medical aid, to consult Dr. Aborn. JOSEPH WILD.

ANOTHER TRIUMPH.

Successful Treatment of the Lungs—The Patient had been Afflicted for Twelve Years—He Gains Thirteen Pounds in Three Weeks Under Dr. Aborn's Skillful Treatment—Sworn and Subscribed to Before A. W. Potts, County Clerk.

STATE OF CALIFORNIA, County of Los Angeles. } ss.

On this 18th day of October, 1875, personally appeared before me, A. W. Potts, County Clerk, C. W. Johnston, who being duly sworn, doth say: "It affords me pleasure to state that under the treatment of Dr. Aborn I am THIRTEEN POUNDS heavier than when I applied to him three weeks ago, my case being one of compression of the chest, with one lung almost useless to me for the past twelve years. I was unfit for manual labor, being in an almost prostrate condition of general debility, weak eyes, etc. I now am doing both day and night service at the Backman House, and feel almost a new man. I will also add that I have tried different modes of treatment and have traveled more or less for the past six years, visiting the different watering places and health resorts and have never found anything so beneficial as Dr. Aborn's plan of medicated inhalation, conjoined with his constitutional remedies, and my advice to the afflicted is not to postpone a day, but to do as I did and consult him without delay.

I have given this to the public voluntarily, believing it to be a charitable duty I owe to those similarly afflicted as I have been.

Respectfully,
C. W. JOHNSTON.

{ SEAL } Subscribed and sworn to before me, this 18th day of October, 1875.
A. W. POTTS, County Clerk.

THE STAR FRUIT DRYER.

This Dryer commends itself to every person who examines it. Every family who has an orchard, vineyard or garden ought to have one. It will supersede the canned fruit, a fruit and vegetables dried on this machine retain their freshness, and if soaked in water thirty minutes before cooking they are as sweet and fresh as those direct from the garden.

Now while there is no sale for grapes, one of these machines will be worth a thousand dollars on a vineyard in making Raisins.

With one of these machines you are independent of the local market.

NEW ADVERTISEMENTS.

WONDERFUL ARITHMETICAL CALCULATION!

A Sewing Machine Factory Turns out One Hundred Machines per day More than it is Capacitated to Make!!!

THE SINGER M'F'G CO'S Sewing Machine Agent has no doubt that the Remington agent justly anticipates harder names for his "pet" machine when it is understood that it is neither "The Singer Improved" nor an "improvement on the Singer." By referring to one of our dailies I find that this soft, noiseless, "pet" machine has been introduced into Los Angeles at a much earlier date than the agent states. (This may be owing to a defect of memory).

The Remington agent has made a rather startling statement to the public in his latest advertisement to this effect—that the Remington S. M. Co. in the manufacture of their family machines have increased from 49,000 to 85,000 in the past four months, and in the same paragraph says that the factory is only capacitated to make 250 per day; thus allowing every working day during said period I find that he gives the "Remington folks" credit for 100 machines more per day than the Factory, with all its "large facilities," can produce—a pretty hard strain on the most fertile imagination.

The Remington Agent asks the "Singer folks" a very important question, namely: Do they base the merits of their machines upon the sales of former years? As am the only representative of the Singer Mfg. Co. in his county I shall answer the question. The Singer Mfg. Co. points with just pride not only to their sales in the past but also to the fact that those sales have constantly increased up to the present. I hold to the rule that the comparative sales of a machine constitutes a correct criterion of its merits and a true index of its popularity.

I shall have no difficulty in tracing back the history of the Singer Sewing Machine, for

It Never Changed its Original Name,

And in showing from the best authenticated public reports that it excels all others for all purposes, I will only go back to the year 1871, in that year the Singer Mnfg. Co. sold

181,260

Machines. In 1872 they sold

219,758;

In 1873 their sales reached

232,444,

And the authenticated report for the year 1874 (the latest obtainable) shows that the

LATEST IMPROVED NEW FAMILY SINGER MACHINE

Stands Unrivaled on this Continent.

The following is a correct statement from said report:

THE SINGER MANUFACTURING CO.

SOLD

241,679 MACHINES;

Wheeler & Wilson Mfg. Co.	92,826
Howe S. M. Co.	35 0 0
Domestic S. M. Co.	22,700
Weed S. M. Co.	20 495
Grover & Baker	20,000
Remington-Empire S. M. Co.	17 608

"If the number sold of any machine be a criterion of its merits, The Singer carries off the palm."

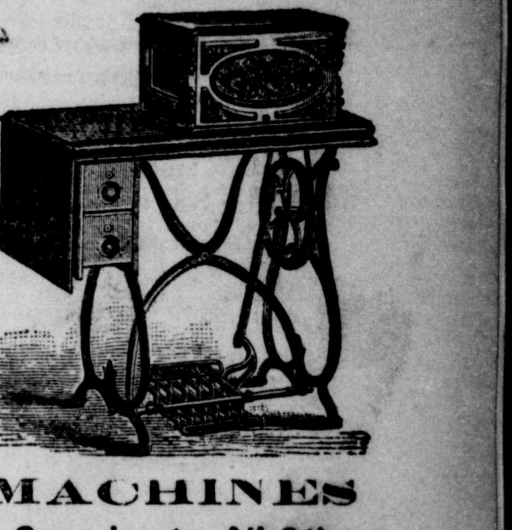

In purchasing, select the most popular.

EDMUND DOAK, Agent,
No. 1 Spring St., Los Angeles.

REASONS WHY

— THE —

REMINGTON FAMILY SEWING

MACHINES

Are Superior to All Others.

FIRST—THEIR SIMPLICITY,

The use of them is very easily acquired, and any girl o ordinary intelligence is capable of keeping them in order.

SECOND.—THE CONSTRUCTION of the Machine is such that it may be run at a higher rate of speed than any shuttle Machine now in the market, In factories where the rate of speed has been registered, over

1.000 stitches per Minute

have been attained with ease.

THIRD—THEIR DURABILITY

being so strong in all their parts and fitted with great mechanical nicety, and being free from the harsh jarring movements and friction so common in inferior machines they will wear a long time without repair of any kind.

FOURTH—THEIR ADAPTABILITY,

By a simple change of the needle and thread they will sew the finest cambric or the heaviest leather.

FIFTH—THEY HAVE NO ROTARY CAMS,

Cog wheels or lever arms to make a noise, run hard, or to get out of order.

SIXTH—THEY HAVE AN ADJUSTABLE

Feed which may be raised or lowered at pleasure.

SEVENTH—ALL THEIR MOVEMENTS

are positive and they cannot be thrown out of time.

Manufactured by the Largest Manufacturing company in America, possessing a world-wide reputation in the manufacture of their firearms, they afford a guarantee of perfection in work and construction.

No other sewing machine has ever been introduced so quickly and met with such rapid sale as the

REMINGTON

It arouses the jealousy, opposition and persistent misrepresentation of the older Sewing Machine Companies through their agents, and even the old Singer Company, through its agents devotes the large share of its advertisements to show that it is not an improved Singer, and that its calculations are upon a false basis.

"With malice toward none, and charity for all," it will be the aim of the agent of the

Remington Sewing Machine

to afford to all an opportunity of testing its merits with those of any other, and let them make their own selection.

BUY THE BEST.

Chicago & Northwestern Railway

The Popular Route Overland

Passengers for Chicago, Niagara Falls, Pittsburg, Philadelphia, Montreal, Quebec, New York, Boston, or any point East, should buy their

TRANSCONTINENTAL TICKETS
Via the Pioneer Route,
—THE—
Chicago and Northwestern Railway.

THIS IS THE BEST ROUTE EAST.

Its track is of STEEL RAILS, and on it has been made the FASTEST TIME that has ever been made in this country. By this route passengers for points East of Chicago have their choice of the following lines from Chicago:

BY THE PITTSBURG, FORT WAYNE AND CHICAGO AND PENNSYLVANIA RAILWAYS,

3 THROUGH TRAINS DAILY, with Pullman Palace Cars through to Philadelphia and New York on each train.

1 THROUGH TRAIN, with Pullman Palace Cars to Baltimore and Washington.

BY THE LAKE SHORE AND MICHIGAN SOUTHERN RAILWAY AND CONNECTIONS (NEW YORK CENTRAL AND ERIE RAILROADS):

3 THROUGH TRAINS DAILY, with Palace Drawing-Room and Silver Palace Sleeping Cars through to New York.

BY THE MICHIGAN CENTRAL, GRAND TRUNK, GREAT WESTERN AND ERIE AND NEW YORK CENTRAL RAILWAYS:

3 THROUGH TRAINS, with Pullman Palace Drawing-Room and Sleeping Cars, through to New York, to Niagara Falls, Buffalo, Rochester or New York city.

BY BALTIMORE AND OHIO RAILROAD:

2 THROUGH TRAINS DAILY, with Pullman Palace Cars for Newark, Zanesville, Wheeling, Washington and Baltimore without change.

This is the SHORTEST, BEST and only line running Pullman celebrated PALACE SLEEPING CARS AND COACHES, connecting with Union Pacific Railroad at OMAHA and from the WEST, via Grand Junction, Marshall, Cedar Rapids, Clinton, Sterling and Dixon, for CHICAGO AND THE EAST.

This popular route is unsurpassed for Speed, Comfort and Safety. The smooth, well-ballasted and perfect track of steel rails, the celebrated Pullman Palace Sleeping Cars, the perfect Telegraph System of moving trains, the regularity with which they run, the admirable arrangement for running through cars to Chicago from all points West, secure to passengers all the comforts in modern railway traveling. No changes of cars and no tedious delays at ferries.

Passengers will find tickets via this favorite route at the General Ticket Office of the Central Pacific Railroad, Sacramento.

TASTELESS MEDICINES.

A PROMINENT NEW YORK PHYSICIAN lately complained to Dundas Dick & Co. about their Sandalwood Oil Capsules, stating that sometimes they cured miraculously, but that a patient of his had taken them without effect. On being informed that several imitations were sold, he inquired and found his patient HAD NOT BEEN TAKING Dundas Dick & Co.'s.

What happened to this physician may have happened to others, and Dundas Dick & Co. take this method of protecting physicians, druggists and themselves, and preventing OIL OF SANDALWOOD from coming into disrepute.

Physicians who once prescribe the Capsules will continue to do so, for they contain the PURE OIL in the BEST AND CHEAPEST form.

Dundas Dick & Co. use more Oil of Sandalwood than all the wholesale and retail druggists and perfumers in the United States combined, and this is the sole reason why the PURE OIL is sold cheaper in their Capsules than in any other form.

OIL OF SANDALWOOD is fast superseding every other remedy, sixty Capsules ONLY being required to insure a safe and certain cure in six or eight days. From no other remedy can this result be had.

DUNDAS DICK & CO'S SOFT CAPSULES solve the problem, long considered by eminent physicians, of how to avoid the nausea and disgust experienced in swallowing, which are well known to detract from, if not destroy, the good effects of many valuable remedies.

TASTELESS MEDICINES.—Castor Oil and many other nauseous medicines can be taken easily and safely in DUNDAS DICK & CO'S SOFT CAPSULES. NO TASTE. NO SMELL.

These were the only Capsules admitted to the last Paris Exposition.

This is a sure cure for

Screw Worm, Scab and Foot Rot

IN SHEEP.

It also kills TICKS, LICE, and all PARASITES that infest Sheep.

Prevents scratching and greatly improves the quality of the wool. One gallon of the Dip properly diluted with water, will be sufficient to dip one hundred sheep, so that the cost of dipping is a mere trifle, and sheep owners will find that they are amply repaid by the improved health of their flocks.

This Dip is guaranteed to cure when used according to directions, and to be vastly superior to Corrosive Sublimate, Sulphur, Tobacco, and other remedies which have heretofore been used by farmers.

Circulars sent, postpaid, upon application, giving full directions for its use; also certificates of prominent sheep-growers who have used large quantities of the Dip and pronounce it the most effective and reliable known cure and preventive of the Scab and other kindred diseases in sheep mr23 1ol 3m
